You have the Right to share the Report with your friends and family.
However you do not have the right to edit any part of this Report.

I am glad to be sharing this Report with you. This contains one of the methods that I use to make money online in a very passive way. It is passive in that once I create an ebook and give it away, it then goes on to make money online for me without any further work or efforts on my part.

Won't you like to be like me and earn money by just giving away some freaking free ebooks online? I know you sure will like to. Then I want you to just listen carefully to what I am going to say in the next couple of pages. It could be the beginning on something great.

I know there are some that has never made a dime online. With the method outlined in this Report, you will go on to make your first money online. This is guaranteed if you will just take ACTION. Yes, this is not a get rich quick scheme. There is nothing actually like a get-rich-quick online. People are just using that to steal money from those inexperienced ones online. They will tell you that you will "make millions overnight without working or selling anything" How is that possible? If they knew, they won't tell you. They would keep it to themselves and make all the millions.

For you to make money online or offline, you got to be selling something. It could be your time, a service or product. Yes that is it. So do not let anyone deceive you anymore.

In this method, you will be creating an ebook and then sharing it online as much as you can. When people get our ebook, read and follow the instructions therein, you will earn a commission. It is not from the person reading and following the instruction. We earn from a company who is getting the lead. This is not in anywhere visible or obvious to the person reading the ebook and so it is a win-win situation for everyone – The reader, the company and my humble self.

So now listen carefully.

I can see that you are now beginning to see the picture of how you can actually make money by giving away free ebooks. It doesn't sound impossible anymore?

Ok I've been doing this for some time now. I have about five ebooks that I have created including this one, which I give away free and they earn me money. If you can write, edit or hire a writer, you can **make hundreds (or even thousands) of dollars giving away ebooks**. You can do it. Anyone can do this. It does not really require a special skill. What it requires is the determination and an i-can-do-it attitude or mentality. I always tell myself that I can do it. I can create money from thin air. I have done this multiple times now. I have been doing this for years and will continue to do so.

To write, you can copy and paste info from the website of the company that you are promoting with your ebook.

It's common for authors to give away their ebooks to build name recognition or to promote their other books. But those aren't the only ways to make money with free ebooks. Here's a strategy that works for me.

How to Make Affiliate Income from EBooks

A few years ago I bought a PDF ebook about building AdSense websites. By the time I had read half of it, I had signed up for a website building service that the Author recommended. I paid \$120 for the service, and because he had linked to it using his affiliate code, he earned a \$40 share of my payment.

I also bought two other products he linked to, resulting in commissions of \$10 and \$20. **Altogether, he made a total of \$70 from me in a couple days with his affiliate links that was in the ebook.** His ebook cost me about \$10, but he would have come out ahead even if he had *paid me* \$10 to read it — or given it to me for free.

This got me thinking. **It must be easier to give away a book than to sell it... by giving it away free; I can reach more people and eventually make more money.**

This led to my discovering this method you are reading in this Report.

I spent a few days putting together a little ebook for myself. In fact most of the contents were copy and paste from online. In a few days I had my ebook which was for a service that was badly needed online. The result, "**How to set up a US bank account as a Non Resident**" was just an ebook of about 12-15 pages. I gave it away free but in the place where I showed the company to sign up with, it was my referral link that was there carefully disguised with a link shortner. It think it was the bitly link shortner that I used. Whether people knew I was using my referral link or not, I will say they did not care. They were happy that I gave them an ebook that solved their problem and upon that they got it free. Who doesn't like free things? We all love it.

When they signed up and fulfilled certain conditions later, I got paid. It was \$25 initially. Later I was able to negotiate \$50 with my affiliate manager. I have been earning money from this ebook ever since and will continue to do so as long as the ebook and the service is in existence.

I think you now understand the concept and you are now ready to give it a try?

Are you ready to give it a try? Here's what you'll need to do:

1. Pick Your Subject

I wrote an ebook based on what I saw was a clear need online. I saw a lot of people looking for a US bank account that they could use to receive their online earnings. Many people had written ebooks on this and were selling them for \$10-\$20 per copy. I saw that the company that was providing the US bank accounts had an affiliate program that paid well. So instead of trying to make the sale of my ebook, I signed up with the company as an affiliate. Because my book was free, many people went for it and signed up for the service. Within a short time, I had a lot of people that I had referred

to the company. Soon the commissions began to come in. Even now I continue to check my account from time to time for my commissions.

Look around you online. Check for any popular programs that you can create ebooks on and give away to earn commission. This works very well in the Make Money Online (MMO) niche. You can find high-commission affiliate programs and create an ebook based on whatever products make the most money. This approach makes sense if you can write about anything easily. It also works if you don't write the book yourself — more on that in a moment.

2. Choose an Affiliate Program

Affiliate marketing is simple enough. You sign up to promote a company's products and they provide a unique code you use to link to them from your website, blog, Facebook page or (of course) ebook. Every time someone goes to the company's website through your links and completes a sale, you earn a commission.

You can search for programs at this site
<http://www.associateprograms.com/directory>

3. Create an Ebook

You can write the ebook yourself or get someone to do it for you. You can also take a short cut ([click to see end of this report](#)).

If you do not want to write, you can use [Fiverr](#). Yes you must have heard of the site [Fiverr](#). Here many services could be obtained for \$5! You can get a Writer for \$20 to do the short report or ebook for you. It is \$10 if you follow the [shortcut at the end of this report](#).

It does not have to be anything elaborate. Just a couple of pages and you are good. But make sure your ebook packs some value – show people how to solve a particular problem or task. This is the key. Let it be a sort of a Do-it-yourself ebook and you will score big with it.

You can also put together a book of free articles as the producer/editor. Find relevant experts online who will give you an article in exchange for a short bio at the end that links to their website or blog. Plan to email or call dozens of authors to get enough articles. But once you have your articles, you just put them together, add recommendations with affiliate links for appropriate products, write a quick introduction, and you have your book.

You can go to EzineArticles.com or any of the article directories and get related articles for your ebook. But make sure you leave the articles Resources links which gives credit to the author to avoid any copyright issues.

If you use MS Word, you can quickly convert your ebook into a PDF, or use an online converter like [CutePDF Writer](#). It's easy to create a download link for the book on your blog or website.

Yes, the "advertising" in your book may annoy some readers, but don't worry about it. **Many readers will want to learn about products they can benefit from, so for them your links make the book more valuable.** If the products you link to are relevant, you won't have many complaints. (And perhaps you could remind the complainers that the ebook was free.)

4. Give Your eBook Away!

This is the easy and fun part. Just give your eBook away.

Give away as many ebooks as you can! Here are some ways to do that:

- Email a copy to everyone you know
- Put a download link on your blog
- Link to your download page from [Facebook and Twitter](#)
- Distribute your work through [free ebook websites](#)
- Convince blog owners to give it away as a gift to visitors
- Convince newsletter publishers to offer it as a gift to subscribers
- Advertise for free on [Craigslist](#) under "Free Stuff"

For best results, get your book into the hands of readers who are passionate about the subject and will love the products you recommend. The way to do this is to post your PDF in the top PDF sharing sites online. There are many sites like these. Search on Google for this. Let the people looking for such info find your ebook. They will appreciate it better.

Now go for it. You have no more excuse not to make it. You can do it.

Good luck!

Good News: The Shortcut!

If you do not want to bother about looking for profitable programs and creating an ebook, I can customize one of my proven ebooks for you. I already found the profitable programs and tested them.

I will add your own links so that you will be the one making the money. All you have to do is give it away. Apart from customizing the ebooks for you, I will also give you the unlimited Right to distribute the ebook as your own.

The cost for this is just a paltry \$10 per ebook (the cost of a lunch for one). And you will be making money with this for years to come. Just one affiliate commission and you have recovered your investment. I have five eBooks and you can have any or all of them if you want.

Want to order for an ebook? Just click below now. It is on [Fiverr](#), the site where I earlier asked you to register for an acct.

This is it. I hope you have seen the possibility of this method. It works all the time. What is now required is for you to take ACTION – the six letter word. Without it, nothing will happen. If you keep the ebook stored somewhere on your hard drive, I can assure you that nothing will happen. Given 2 or 3 days and you would have forgotten all about it and moved to trying to find the next shining object which I can tell you does not exist.

There is nothing like get rich or make millions overnight. It does not work and you only waste your money.

What I have given you a strong blueprint to make money online. Give it the attention that it requires and you will make money. Just take off with one ebook that you give away.

Do not let the thought of creating the ebook keep you away. Just order one of my free ebooks via the link below:

<http://www.ewealthsuccess.com/fiverr2>

It is just \$10 for the one book and that is the only cost from your pocket. Every other thing is free. And you can go on to make hundreds of dollars with this one ebook.

Take action now, order for one ebook to be created for you. I will let you choose from the five that I have.

<http://www.ewealthsuccess.com/fiverr2>

Get me to do the ebook for you. Give this away for at least 2-3 months and then measure the results that you get. That is how it is done. You pick up a method and focus all your energy and vision on it. If it is a good method or system, you will surely see positive result. This is how you separate yourself from the 95% of people online that does not make money. You move into the 5% by taking ACTION. I think I have said enough.

I wish you good luck and pray that you take ACTION.
